ABOUT ME

Dedicated Primary Science Teacher with 3+ years of experience delivering the British Curriculum (Cambridge and Edexcel) in international school settings across Sri Lanka and Qatar. Specializing in inquiry-based and STEM-integrated learning for Key Stage 1 and 2 learners, with a strong record of designing hands-on experiments that build scientific thinking from an early age. Holds a PGD in Education (Level 7) & BSc. in Psychology. Experienced in inclusive classroom practice, supporting students with diverse learning needs including EAL and visual impairment. Currently based in Sharjah on a spouse visa and available to join immediately.

PROFESSIONAL EXPERIENCE

Stafford Sri Lankan School Doha — Doha, Qatar

Class Teacher / Primary Science Teacher | November 2024 – October 2025

- Develop engaging lesson plans and teaching materials that align with primary school science curriculum.
- Conduct hands-on experiments and demonstrations to help students understand scientific concepts.
- Create a positive and inclusive learning environment where students feel encouraged to ask questions and explore ideas.
- Assess students' understanding of science topics through quizzes, tests, and projects.
- Communicate effectively with parents about their child's progress and address any concerns.
- Participate in professional development programs to stay updated on best practices in science education.
- Collaborate with colleagues to design cross-curricular activities that integrate STEM learning.

Lyceum International School — Colombo, Sri Lanka

Primary Science Teacher / Science Coordinator | August 2024 – November 2024

- Oversee and conduct engaging laboratory activities, strictly adhering to safety protocols and maintaining equipment to provide hands-on learning experiences.
- Assisted in preparing teaching aids, experiment kits, and science models.
- Monitored student progress, provided feedback, and helped struggling learners improve.
- Organized school science fairs and extracurricular clubs to foster scientific curiosity.

Assistant Teacher

May 2023 – August 2024

- Supporting classroom activities and assisting teachers with lesson planning.
- Helping students with academic tasks and creative projects.
- Maintaining a safe, engaging, and positive learning environment.
- Encouraged positive classroom behavior through reward systems and guidance.
- Helped with school events and cultural activities as part of teacher training.
- Observed and learned instructional strategies for different learning styles.

DETAILS

Nationality: Sri Lankan
Visa Status: Spouse Visa

CORE TEACHING COMPETENCIES

- Inquiry-Based and Experiential Science Teaching
- Strong knowledge of scientific principles and concepts
- Excellent communication and presentation skills
- Lesson Planning & Differentiated Instruction
- STEM and Project-Based Learning
- Classroom and Behavior Management
- Formative & Summative Assessment Design
- Integration of Technology in Learning (Google Classroom, MS Teams)
- Child-Centered Pedagogy and Special Needs Awareness
- Parent Engagement and Progress Reporting
- Experience of working in culturally diverse setting
- Highly organized and able to meet deadlines
- Active Learning - designing interactive, student-centered lessons

EDUCATION

PGD in Education (Level 7)
EduQual | July 2024 – September 2025

BSc. in Psychology
University of Northampton | May 2023 – June 2024

HND in Psychology
CIRP | 2021 – 2023

Advanced Levels (Cambridge)

TECHNICAL & DIGITAL SKILLS

Google Classroom, MS Teams, Zoom, Canva, Interactive Whiteboards, Microsoft Office Suite

KEY ACHIEVEMENTS

- Boosted average student attainment in science assessments over two academic years through differentiated instruction and targeted intervention strategies (improved class average from 68% to 79%).
- Introduced structured inquiry cycles across all science units, resulting in a 23% improvement in practical assessment scores related to students' ability to design and conduct independent scientific investigations over one academic year.
- Won the "Best Classroom Decoration Award" for creative and thematic classroom design promoting an engaging learning environment. (Stafford International, 2024).
- Successfully adapted all core science units to support students with diverse learning needs (e.g., visual impairment, EAL), ensuring all students were able to participate meaningfully in hands-on investigations.
- Participation in extracurricular science clubs and school-wide science fairs fostering a deeper interest in STEM fields.
